Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 3 is objected to because of the following informalities: on line 8, " element" should read—
elements—. Appropriate correction is required.

Information Disclosure Statement

2. The information disclosure statement filed 08-19-02 fails to comply with 37 CFR 1.98(a)(1), which requires a list of all patents, publications, or other information submitted for consideration by the Office. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1, 2, and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Ochiai et al(US 4,851,792 of record).

The reference by Ochiai et al discloses an integrated piezoelectric oscillator (see figures 1,3b,4a and col. 4, 7-22) with amplifier(13) and resonator(17) and divisional

capacitors(15,18). An ac voltage is developed on amplifier input/output terminals while an injection voltage terminal(Ti) is connected to the other terminal of the MOS construct capacitor(14)(see figs. 4a and 3b) showing a control voltage falling within a range.

Allowable Subject Matter

3. Claims 3 and 5-6 are allowed.

Response to Arguments

The amendment filed 01-21-03 has been considered but does not overcome the rejection because the new recitation(in claims 1,2, and 4) is not for a " single polarity" as applicants want but for a same polarity of the voltage; the reference will at some point share the same polarity during the operation of the circuit.

Conclusion

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2817

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
